BOOST Training Update #28

Your update on training opportunities available through the BOOST Grants Program

Welcome Back to GSAN's Quality Supports!

The BOOST team is thrilled to launch our re-aligned, multi-tiered professional development offerings for grantees. With an expanded quality support team and lots of feedback from stakeholders like you, we streamlined our selections, introduced more in-person content, and renewed our commitment to effective coaching and capacity-building. *No trainings listed are required for the BOOST program -- the requirements outlined in Year 1 have been rescinded.* We believe that the worth of the trainings, coaching, and standards for the field speak volumes, and we trust grantees to choose offerings based on their own needs.

Remember to share Training Updates with colleagues within your organization, and encourage them to sign-up to receive these Updates if they are interested. Unlike Grantee Updates, training communications are for all levels of staff looking for resources and opportunities to advance their professional knowledge.

Thank you for your patience and enjoy!

2023 Training Calendar

GSAN is pleased to present our 2023 training calendar, which will be updated on a regular basis. Please bookmark this calendar! As registration links become available, we'll update the schedule -- many offerings already have registration live! Be on the lookout for more e-blasts to come that will highlight great new offerings like the certificate series facilitated by the Georgia Center for Nonprofits, in-person STEM workshops, regional networking opportunities, and more!

View 2023 Training Calendar

The calendar is designed to make it easy to locate trainings for all areas of your organization: administration, quality, leadership, and programming. Check it out and make note of trainings you'd like to attend today! If a registration link is available, go ahead and sign up! Unless otherwise noted, all trainings are free for BOOST grantees.
