

GEORGIA STATEWIDE AFTERSCHOOL NETWORK

GA #Invest3to6 Social Media Toolkit

It is more important than ever to reach out to your Congressmen and let them know the importance of afterschool and the 21st Community Learning Centers (21st CCLC) in Georgia!

[As it is currently drafted](#), the Elementary and Secondary Education Act (ESEA) threatens to eliminate the only designated federal funding for afterschool. Without a separate funding stream specifically targeting learning outside the school day, essential learning opportunities that are helping more than 1.5 million young people nationally better prepare for college, careers and life may disappear. In Georgia alone, 21st CCLC provides over 35,000 of Georgia's young people a safe and enriching place to go after school and helps to level the playing field in achieving school success and career readiness.

This toolkit includes sample tweets and posts to each Georgia Congressmen to make it easy for you to let your Congressmen know that now is not the time to eliminate the only designated federal funding for afterschool. It only takes one click!

Not sure who your Congressman is? Find out [here](#).

For more ways to get involved, be sure to head over to Afterschool Alliance's [blog](#) and check out their [social media toolkit](#).
