Training Spotlight

Data and Outcomes Professional Learning Community starts this October. Sign-Up Today!

This professional learning community (PLC) is designed to give space for OST staff interested in collaborating, learning, and sharing information and ideas pertaining to data and evaluation. Led by the Transformative Research and Evaluation (TRE) Team, participants will co-create an agenda of topics to cover during the PLC. Potential topics include using data to raise dollars, using data to improve programs, visualizing data, identifying the right data collection instruments, collecting data, and identifying performance measures. OST CEO Reflection: Youth Program Quality Assessment

"The resources we've had access to have proven invaluable to Odyssey, significantly enhancing our strategic planning and overall impact on the scholars and families we serve. We are deeply grateful for the assessment, which not only validated much of our methodology and programming but also provided us with valuable insights for improvement. We plan to use the metrics, feedback, and insights gained to adopt a more data-informed approach as we continue to foster highly engaged classrooms that empower our scholars with voice, academic rigor, creativity, and a strong sense of community." Kisha Stanley, Executive Director

The YPQA assessment provides programs with the data needed to identify strengths & challenge areas and build safer, more supportive, interactive, & engaging environments for youth. The assessment will include a 3-hour observation, review session and supplemental resources and is available at no cost to your program. [Sign-up today.](#)
